

# JP-Series PT

## Coolant Pump & Plastic Tank

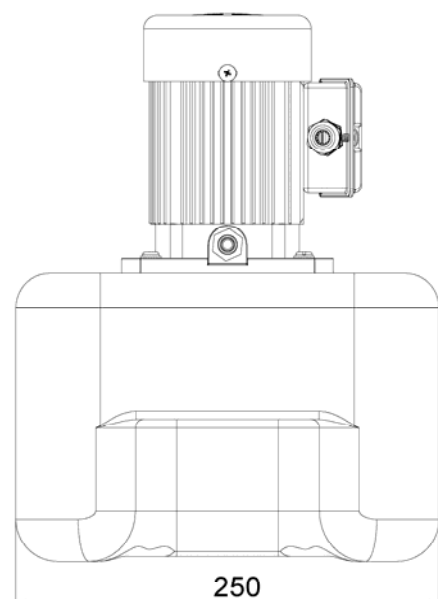

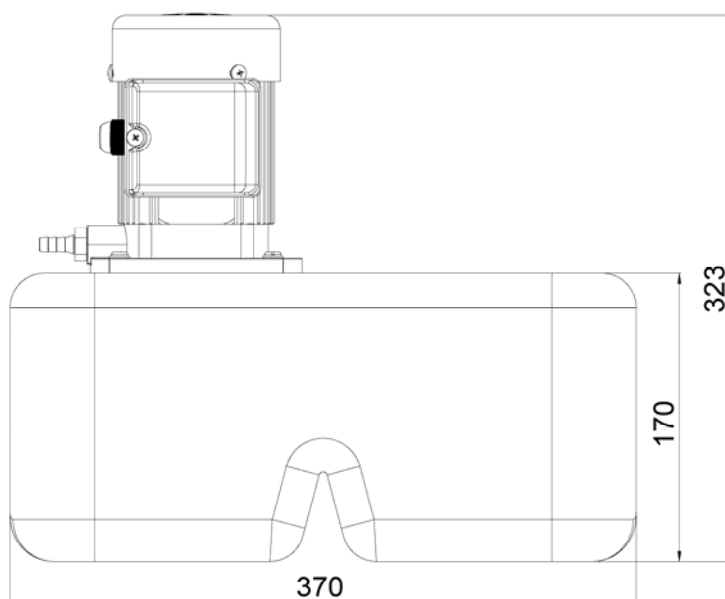

### Features

- Complete unit includes 1/8HP pump
- Motor with thermo overload protection
- PVC supply and drain hose
- On/Off switch (IP54)
- Magnetic base nozzle
- PVC tank

Model Description: Take 2150 as example, 2 means the voltage, 220~230V and 150 means the soaking depth.

Model	JP-1150PT	JP-2150PT	JP-24150PT	JP-3150PT	JP-4150PT
Type	Coolant Pump & Plastic Tank				
Tank Capacity	13 Liter				
Voltage	110V~120V	220V~230V	240V	380V~400V	415V~440V
Motor Power	1/8HP (72W) 1Ph				
Lift , Meter	3.5M				
Net weight, Kgs	4.3kg				
Packing dimension, mm	385 x 270 x 365mm / 1.3Cuft				
Gross weight	5kg				

## Function Description

IP54 Switch of Dust-Proof  
and Water-Proof and Switch  
Box

IP54 Dust-Proof and  
Water-Proof

Cooling Fan+ Overheat  
Prevention Device

Switch Box Holder

Recycling Water Pipe  
Holder
